

# In 1996 Virgin Trains won the Cross Country and West Coast franchises and, the following year, the famous Virgin flair hit the railways. A truly national network, Virgin Trains covers vast areas of Britain.

Thompson AVC has been working with Virgin trains since 1998.

The company supports Virgin Trains with a fully comprehensive preventative maintenance programme throughout Virgin's entire estate covering:

- CCTV
- Fire
- Intruder
- PA
- Data and Telecoms
- Access Control

“The seventeen stations we support cover the length and breadth of the UK. Our proactive approach means we can support Virgin across their entire estate.”

Scott Thompson added “our philosophy has always been to work in synergy with our client and Virgin is a good example of this. We ensure all our projects obtain secure station and car accreditation”.
